PROFESSIONAL SUMMARY

Motivated and enthusiastic Computer Science and Engineering student seeking an entry-level opportunity as a Software Engineer to apply programming and web development skills. Eager to contribute to real-world projects, learn new technologies, and grow professionally while delivering effective software solutions.

EDUCATION

Bachelor of Technology (B. Tech) – Computer Science and Engineering 2023-2027
Kamala Institute of Technology and Science, Singapur
Currently Pursuing - Fourth Year (4-1) | CGPA: 9.07/10

TECHNICAL SKILLS

Programming: C, Java
Web: HTML, CSS, JavaScript
Database: MYSQL
Tools: Git, GitHub, Visual Studio Code

INTERNSHIP

EduSkills Virtual Internships

- Completed virtual internships in AWS Cloud, Google AI/ML, Java Full Stack, and Business Analytics.
- Gained hands-on exposure to cloud computing, AI/ML, full-stack development, and business analytics.

PROJECTS

LABHANTE AUTOMOTIVE STUDIO

using MERN stack | React JS | Node JS | Express JS | MongoDB

- Developed a full-stack automotive service web application using the MERN stack, enabling users to browse vehicle services and manage bookings through a responsive interface.
- Implemented secure user authentication and role-based access (Admin/User), allowing administrators to manage products and services while ensuring protected access.
- Designed responsive user interfaces and integrated RESTful APIs with MongoDB, providing fast data retrieval.

FIRST AID GUIDE

using web development | HTML | CSS | JavaScript

- Developed a web-based First Aid Guide to provide quick access to emergency first-aid information for common injuries and medical situations.
- Collaborated with teammates and Implemented organized content and navigation to help users easily access first-aid procedures.

CERTIFICATIONS

- DSA DeepTech Bootcamp - Participation certificate
- DevOps Fundamentals - Infosys Springboard
